## One Week Faculty Development Program on Advancing Careers Through Technology, Management, and Skill Based Learning

**3<sup>rd</sup> – 07<sup>th</sup> March, 2025**

Organized by-

## Assam Skill University

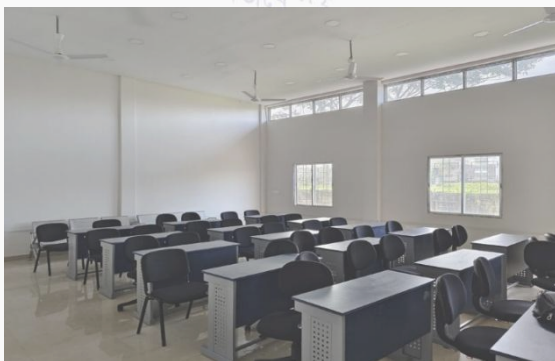

## About Assam Skill University

The Assam Legislative Assembly passed the Assam Skill University Bill -2020 in September 2020 to establish Assam Skill University (ASU) in accordance with the regulations of the University Grants Commission, Government of India. The Assam Skill University Act-2020 came into force w.e.f. 4th August,2021.

The State Government also foresees ASU to cater for the needs of students; Technical and Vocational Education and Training (TVET) and higher education institutions; and industries in neighboring countries, which face similar challenges in skills education and training, and with which the state has long-standing relationships. ASU is being set up at Mangaldoi (Darang district), located about 70 kilometers east of Guwahati. Mangaldoi is connected by National Highway 15. The main campus at Mangaldoi is under construction over a plot of land measuring 83 acres (250 Bigha) and is likely to be ready for occupation in July, 2025.

Meanwhile, a city campus is established at Gopinath Nagar, Guwahati within the ITI-Guwahati campus. The University has commenced the sessions for the academic year 2024-25 from the city campus. The main campus at Mangaldoi will be operational from academic session 2025-2026.

## Key Highlights of the FDP

**Integration of Technology in Education** – Emphasizing the role of digital tools, AI, and emerging technologies in enhancing teaching and learning experiences.

**Skill-Based Learning** – Focusing on industry-relevant skills, practical training, and experiential learning for career advancement.

**NEP & Skill Course** – Emphasis on Integrating NEP-aligned skill courses to bridge academia and industry needs. Enhancing employability with future-ready, practical learning approaches.

**Technology Management** – Understanding how to efficiently manage technological resources in academia and industry.

**Bridging Academia and Industry** – Aligning educational practices with industry demands to improve employability and career growth.

**Innovative Pedagogical Approaches** – Exploring new teaching methodologies, blended learning, and interactive learning strategies.

**Capacity Building for Educators** – Equipping faculty with skills in curriculum development, research methodologies, and digital literacy.

## Objective of the FDP

The objective of this Faculty Development Program (FDP) is to empower educators with the knowledge and skills required to integrate technology into education effectively, enhance skill-based learning, and bridge the gap between academia and industry. It aims to equip faculty with innovative teaching methodologies, digital literacy, and career development strategies to improve student outcomes and professional growth.

The present FDP will be significantly focusing on implementing the National Education Policy (NEP) at Higher Educational Institutions (HEIs). The participants will be empowered on integrating NEP guidelines into their institutional frameworks, aligning curriculum structures with skill-based learning, and fostering collaboration between academia and industry.
